Functional medicine health coaching · Request for partner pricing

Date: 16 June 2026

We refer clients for blood work on an ongoing basis and would like to set up a standing arrangement with Acumen. Below is the panel we order for most clients, which we'd like to fix as a package, followed by the additional markers we order case by case.

Please quote: (1) a package rate for the base panel, with and without the hormone block, and (2) your rate for each of the additional markers (or a flat partner discount across them). Home sample collection and digital reports required.
